My trouble pulled me down in only temporary relief and I was soon Remedy meets these conditions. It as bad off as I was before, if not is a favorite with many mothers.

Sinnapaschugy is the word coined by the Navajo Indians of Utah for motorcar, and it is literally translated to mean a wagon that goes with a "chug," according to an authority on the language of the Navajo, Hopi and Apache Indians. The Indians are now seeking a word for the airplane. It is a miracle to them.

ADMIRAL PEARY DEAD

WASHINGTON, February 23.— Rear Admiral Robert Edwin Peary, 64, retired, Arctic explorer and discoverer of the North Pole, died at his home here, of pernicous anemia, from which he had suffered for several years. Arrangements for the funeral have not been completed, but he will be buried with full raval honors.

Admiral Peary submitted to a blood transfusion at a hospital here ten days ago. He gradually grew weaker, however, and the end came Says He Performs Duties With Reearly this morning. Dr. H. F. GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy

Just moisten a cloth with a little 'Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and greasse, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier.

CHRONIC CONSTIPATION.

Most of them have brought that condition on horsepower blower, that is placed on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.

Whereas other gems, such as the ruby, the emerald, and the sapphire, owe their colors to mineral elements by which the crystals are stained, the brilliant tints of the opal are due to its structure, ever so many minute cracks reflecting lights at different angles from their edges. Trutona.

BOLWING GREEN, KY., February 23.—"I'm wide awake and active and really feel like working; seems as though I'm able to perform my duties with a new vim since taking Trutona," C. W. Howerton, a well-known letter carrier here, who lives at 106 Fourteenth street, said a few days ago.

"I hadn't been feeling well, and I was afraid to 'lag' along as 'flu' time was drawing near." Mr. Howerton continued: "My digestion was poor and although I slept well, my sleep didn't seem to be restful, as I usually felt lifeless, tired and draggy. My liver and kidneys were not normal either. I felt derowsy and sleepy most all day.

"After several of my neighbors had spoken to me about Trutona I finally decided to try the medicine. As I just said, I can perform my duties with a new vim since taking Trutona. I'm wide awake and active and feel more like working, it seems. Trutona gave me quicker relief than any other tonic I have ever taken and because of the quick thorough benefits I have gained through it I am glad to recommend his medicine."

Trutona is now being introduced and explained in Paris at Varden & Son's drug store.

Clover Barometers.

The ordinary clover and all its varieties, including shamrock, are barometers. When rain is coming the leaves shut together like the shells of an oyster. For a day or two before rain comes their stems swell to an appreciable extent, and stiffen so that the leaves are borne more uprightly than usual. This stem swelling when rain is expected is a feature of many flowering grasses.

"It is of more consequence that I shall do the work for which I have been commissioned by the voters of Ohio when I was sent to the Senate than to neglect them to seek new honors," Senator Pomerene said in a statement addressed to the Demo-crats of Ohio. "I can not do my full duty in the Senate and give my time and energies to the campaign for the Presidency.

an' a friendly natural tobacco. Keep yo' puton airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie-

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velver's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything-and least of all, tobacco.

And so we say, Velvet is good tobacconothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.
